

OUR ALLIANCE OF NETWORKS REPRESENTS OVER 27,000 WOMEN IN BUSINESS IN BC

We are a consortium of over 25 women's business networks collaborating to better support the economic advancement of women in the professions, entrepreneurship and the trades in BC.

WHAT WE DO

Members of the WEB Alliance of Women's Business Networks are existing organizations that are united by a common goal to support the professional women of BC. Our goal is to create change towards better business, stronger communities and an enhanced business culture for women. To that end, we:

ADVOCATE

on behalf of women in business

CONNECT

women with networks and events

HOST

joint events, such as WE FOR SHE

SHARE

best practices to serve women professionals

How We Do It

Our member organizations work together to identify competencies to combine resources and services and collaborate (rather than compete) to serve the women of BC. As the number of women's business networks in BC continues to grow, so does the WEB Alliance. We work together to create a bigger impact! Collectively,

We engage the public, the business community and government with dialogue, consultations and resources to help and encourage them to take action to support women in business

We provide women with relevant resources, events and information that raise the profile of women professionals in BC and give them the skills, confidence and connections to become leaders in the workplace

OUR CURRENT COLLABORATIONS

Since 2009, the WEB Alliance has created synergies by hosting joint events and advocating on behalf of professional women. Our partnerships with organizations such as **The Greater Vancouver Board of Trade** and **Women's Enterprise Centre** increase our impact.
